

Source EURO STOXX 50 UCITS ETF

Investment objective

The Source EURO STOXX 50® UCITS ETF aims to provide the performance of the EURO STOXX 50® Total Return Index.

Source ETF structure

The Fund achieves its performance through Source's swap-enhanced ETF structure. This innovative investment technique combines full investment in physical equities with a multicounterparty swap overlay to minimise tracking error. Source's approach allows counterparty risk to be substantially reduced compared to typical swap-enhanced ETFs.

¹ Deliberately simplified description of constituents. For further information please visit the index provider's website.

² Annualised volatility based on daily log returns

³ Sharpe ratio is adjusted for risk free rate, taken as the yield on 12 month US Treasuries

⁴ Annualised relative return vs the benchmark, calculated on a proportional basis, as (fund return+1)/(index return+1) - 1

⁵ Tracking error is calculated as the annualised volatility of daily excess returns against the index

⁶ Includes management fee, custody and administration costs but excludes transaction costs such as swap costs

Buying and selling Source ETFs

Source ETFs can be traded both on exchange and over the counter. The ETFs have multiple dealers and market makers, encouraging tight bid offer spreads and high liquidity. For guidance and intelligence concerning trading in Source products, please contact our Capital Markets group on +44 (0) 20 3370 1154 or capitalmarkets@SourceETF.com.

Key features

Liquidity

Source's multi broker/dealer platform enhances daily liquidity and provides robust bid-offer spreads both OTC and on exchange. Source ETFs have similar liquidity characteristics to their underlying traded securities.

Flexibility

By using Source ETFs on a number of indices, an investor can build or customise a range of exposures and with intraday liquidity can adjust these exposures dynamically. Source ETFs can be lent and borrowed, allowing investors to go long and short indices.

Transparency

Source ETFs aim to replicate the performance of the underlying index. Additionally, they benefit from a transparent fund and cost-structure. Benchmark constituents and weightings are published daily.

Simplicity

Source ETFs help investors to gain exposure to a wide range of indices while executing only one trade.

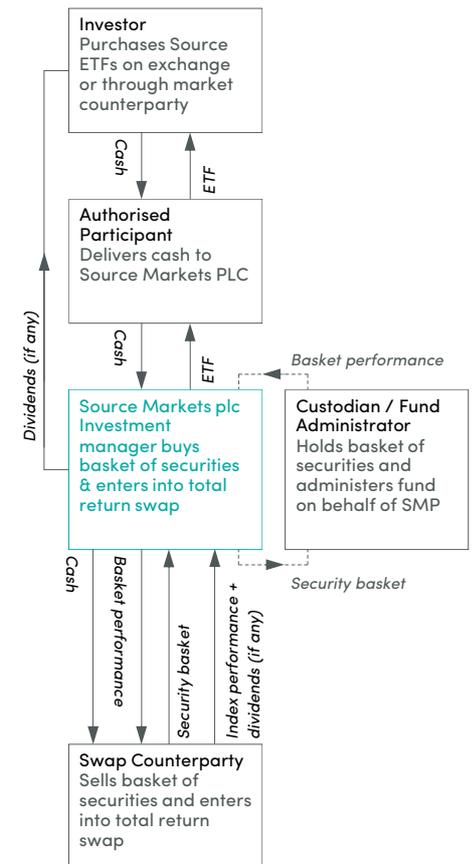

Accessibility

Source ETFs are traded and settled on regulated stock exchanges and can be purchased and held in ordinary brokerage or custodial accounts.

Cost-effectiveness

Source ETFs have significantly lower management fees or total expense ratios (TERs) than many actively managed funds.

Source ETFs constitute exchange traded funds issued by an Irish domiciled company, Source Markets PLC, established under Irish law. The ETFs entitle the holder to receive a return linked to the performance of the benchmark index. Investors are therefore at risk that the level of the index may cause any amounts payable under the product to be less than the amount paid for the ETFs. Accordingly, this investment bears market risk and investors are cautioned to take advice accordingly. The historical level of the index should not be taken as an indication of the index's future performance during the term of the ETFs. The value of investments may fluctuate and investors may not get back the amount invested. Investment risks from market and currency losses as well as high volatility and concentration risk cannot be excluded.
